

Sharing Counters: Equal Groups & Fractions (Worksheet 1)

1. Share 12 counters among 3 children. How many does each child get?
2. Share 15 counters among 5 children. How many does each child get?
3. Share 18 counters among 3 children. How many does each child get?
4. Share 20 counters among 4 children. How many does each child get?
5. Share 10 counters among 5 children. How many does each child get?
6. Share 24 counters among 3 children. How many does each child get?
7. Share 16 counters among 4 children. How many does each child get?
8. Share 30 counters among 5 children. How many does each child get?
9. Share 9 counters among 3 children. How many does each child get?
10. Share 25 counters among 5 children. How many does each child get?
11. Share 12 counters among 4 children. How many does each child get?
12. Share 25 counters among 5 children. How many does each child get?
13. Share 14 counters among 2 children. How many does each child get?
14. Share 36 counters among 4 children. How many does each child get?
15. Share 40 counters among 5 children. How many does each child get?

Sharing Pop Sticks: Fractions in Action (Worksheet 2)

1. Share 12 pop sticks between 3 friends. How many does each get?
2. Share 16 pop sticks between 4 friends. How many does each get?
3. Share 20 pop sticks between 5 friends. How many does each get?
4. Share 18 pop sticks between 3 friends. How many does each get?
5. Share 24 pop sticks between 4 friends. How many does each get?
6. Share 30 pop sticks between 5 friends. How many does each get?
7. Share 9 pop sticks between 3 friends. How many does each get?
8. Share 10 pop sticks between 5 friends. How many does each get?
9. Share 14 pop sticks between 2 friends. How many does each get?
10. Share 15 pop sticks between 5 friends. How many does each get?
11. Share 12 pop sticks between 4 friends. How many does each get?
12. Share 16 pop sticks between 2 friends. How many does each get?
13. Share 18 pop sticks between 3 friends. How many does each get?
14. Share 20 pop sticks between 4 friends. How many does each get?
15. Share 25 pop sticks between 5 friends. How many does each get?

Sharing Toys / Small Objects (Worksheet 3)

1. 12 toy cars shared between 3 kids. How many for each?
2. 18 toy cars shared between 3 kids. How many for each?
3. 20 toy cars shared between 4 kids. How many for each?
4. 24 toy cars shared between 4 kids. How many for each?
5. 30 toy cars shared between 5 kids. How many for each?
6. 36 toy cars shared between 3 kids. How many for each?
7. 10 toy cars shared between 5 kids. How many for each?
8. 15 toy cars shared between 3 kids. How many for each?
9. 8 toy cars shared between 4 kids. How many for each?
10. 16 toy cars shared between 2 kids. How many for each?
11. 18 toy cars shared between 3 kids. How many for each?
12. 20 toy cars shared between 5 kids. How many for each?
13. 12 toy cars shared between 2 kids. How many for each?
14. 25 toy cars shared between 5 kids. How many for each?
15. 30 toy cars shared between 6 kids. How many for each?

Word Problems: Fractions and Sharing (Worksheet 4)

1. Anna has 12 chocolates and shares them with 3 friends. How many chocolates does each friend get?
2. Tom shares 15 pencils among 5 friends. How many pencils each?
3. A teacher shares 20 stickers among 4 students. How many stickers each?
4. There are 18 balloons shared between 3 children. How many each?
5. 30 apples are shared between 5 kids. How many each?
6. 16 toy cars shared between 4 children. How many each?
7. Lily has 24 marbles, shared among 3 friends. How many for each?
8. 12 biscuits are shared between 4 children. How many each?
9. There are 20 markers shared among 5 kids. How many each?
10. 15 crayons shared between 3 children. How many each?
11. 10 candies shared among 2 children. How many each?
12. 18 pencils shared between 3 children. How many each?
13. 12 apples shared between 3 children. How many each?
14. 25 pop sticks shared among 5 children. How many each?
15. 30 stickers shared between 6 children. How many each?

Mixed Numbers & Sharing Collections (Worksheet 5)

1. Share 12 counters between 3 children. How many does each get?
2. Share 16 pencils between 4 students. How many each?
3. Share 20 chocolates between 5 friends. How many each?
4. Share 21 marbles between 3 children. How many each?
5. Share 25 toy cars between 5 children. How many each?
6. Share 12 candies between 2 children. How many each?
7. Share 16 pencils between 4 children. How many each?
8. Share 18 stickers between 3 children. How many each?
9. Share 25 coins between 5 children. How many each?
10. Share 16 toy cars between 2 children. How many each?
11. Share 15 chocolates between 3 children. How many each?
12. Share 20 biscuits between 4 children. How many each?
13. Share 24 apples between 6 children. How many each?
14. Share 27 balloons between 3 children. How many each?
15. Share 30 pencils between 5 children. How many each?

Challenge: Fractions & Division (Worksheet 6)

1. 18 counters shared among 3 children. Fraction for each?
2. 20 candies shared among 5 friends. Fraction for each?
3. 12 stickers shared between 4 children. Fraction for each?
4. 15 pencils shared among 3 children. Fraction for each?
5. 25 marbles shared among 5 children. Fraction for each?
6. 16 toy cars shared among 4 children. Fraction for each?
7. 30 pop sticks shared among 5 children. Fraction for each?
8. 24 chocolates shared between 6 children. Fraction for each?
9. 10 apples shared among 2 children. Fraction for each?
10. 18 balloons shared among 3 children. Fraction for each?
11. 20 crayons shared between 4 children. Fraction for each?
12. 12 biscuits shared among 3 children. Fraction for each?
13. 15 counters shared between 5 children. Fraction for each?
14. 14 pencils shared between 2 children. Fraction for each?
15. 9 toy cars shared between 3 children. Fraction for each?

Answer Sheet

#	WS1	WS2	WS3	WS4	WS5	WS6
1	4	4	4	4	4	1/3
2	3	4	6	3	4	1/5
3	6	4	5	5	4	1/4
4	5	6	6	6	7	1/3
5	2	6	6	6	5	1/5
6	8	6	12	4	6	1/4
7	4	3	2	8	4	1/5
8	6	2	5	3	6	1/6
9	3	7	2	4	5	1/2
